ABOUT US

We are an integrated multi-metal and waste recycling and value-added manufacturing company with a legacy spanning nearly Four decades, committed to advancing the circular economy and delivering sustainable and responsible material solutions across India and key international markets. We were the largest exporter of lead alloy and among the top five exporters of lead from India, in terms of both value and volume in Fiscals 2025 and 2026. We were also the fastest growing lead manufacturing company in India based on PAT growth for the nine months ended December 31, 2025, among peers considered. According to the CRISIL Report, we are the only Indian company with two lead brands registered with the London Metal Exchange (“LME”) for 99.97% and 99.985% purity levels. Further, we are the only Indian company with a 99.985% purity level lead brand registered with the LME.

We focus on manufacturing of value-added non-ferrous metal products such as lead, tin and aluminium, copper and plastics, by way of recycling of non-ferrous metals, plastic and e-waste scrap. Our product offerings include pure lead and lead alloys, aluminium alloys, copper ingots, tin products and plastic granules. These products cater to a wide range of end-use industries, including battery manufacturing, automotive, industrial and allied sectors, across domestic and international markets, and are tailored to meet specific industry and customer requirements.

We procure non-ferrous metals, plastic and e-waste scrap from domestic and international suppliers and undertake environmentally responsible recycling operations through the nine (9) strategically located manufacturing units operated by our Company and subsidiaries across Karnataka, Tamil Nadu, with an annual average installed capacity of 119,622 metric tonnes per annum (“MTPA”) as of December 31, 2025. Recycling is an integral part of our manufacturing process and comprises systematic collection, segregation, sorting, dismantling, processing of scrap materials, followed by smelting and refining to recover lead and other usable metals, which are converted into value-added products such as pure lead, lead alloys and aluminium alloys, among others.

BOARD OF DIRECTORS

Narayan Shankar

Independent Director & Chairman

Narayan Shankar is an Independent Director and Chairman of the Company. He served as Executive Vice President & Company Secretary of Mahindra & Mahindra for nearly 23 years and brings leadership experience in corporate governance, regulatory compliance, mergers and acquisitions, restructuring, and capital market transactions. During his tenure, he played a key role in strengthening governance frameworks across Mahindra and Mahindra Limited.

Prasath Chandrasekaran

Prior to joining our Company, he was associated with Sonicwall Infosecurity Private Limited as a director human resource - India and with Dell International Services India Private Limited as a human resource generalist consultant.

WHAT WE SELL

- Pure Lead and Lead Alloys
- Pure Lead 99.97% to 99.985% Purity
- Lead Calcium Alloy
- Lead Tin Alloy
- Lead Antimony Alloy
- Lead Silver Alloy
- Aluminium Alloy
- Copper Products
- Copper Cloves
- Copper Ingots
- Plastic Granules
- E-waste recovered products

WHAT WE BUY

- Used Lead-Acid Battery Scraps
- Lead Battery Plate Scraps
- Lead-Bearing Residues and Other Lead Waste
- Lead Scraps
- Lead Copper Cable Scraps (ISRI RELAY)
- Remelted Lead and Lead Bullion
- Aluminium Casting Scraps from Foundries
- Aluminium Cable and Conductor Scraps
- Aluminium Extrusion Scraps
- Solder Scraps
- Solder Dross and Tin Dross
- Tin-Bearing Residues and Scraps
- Remelted Tin and Tin-Lead Materials
- Battery Plastic Scraps
- PP, PPCP, ABS, HIPS and HDPE Scraps
- Industrial and Household Plastic Waste
- Copper Wire & Cable Scraps
- Copper Motors and Electrical Components
- Used Computers and Laptops
- Household Electrical and Electronic Appliances
- Motherboards and Electronic Components
- Industrial E-Waste

EMPLOYEE WELFARE

We are committed to providing a positive, inclusive, and supportive work environment where employees can grow professionally and personally. Through employee engagement initiatives, learning opportunities, wellness programs, and a culture of mutual respect, we strive to enhance the overall well-being of our workforce.

The health and safety of our employees, contractors, and stakeholders remain a top priority. We promote a strong safety culture through training, awareness programs, preventive measures, and continuous monitoring to ensure safe and healthy working conditions across our operations.

We actively engage with local communities and support initiatives that contribute to education, environmental sustainability, skill development, and social welfare. We believe in building long-term relationships with the communities in which we operate and creating positive social impact through responsible business practices.

Corporate Social Responsibility (CSR)

Our Corporate Social Responsibility initiatives focus on creating meaningful and sustainable change. We work closely with schools and students to promote environmental awareness through tree plantation drives and green initiatives. We also support differently abled individuals by assisting them in establishing small businesses and livelihood opportunities, helping them achieve greater financial independence and self-reliance.

Through these initiatives, we aim to contribute towards a more inclusive, empowered, and sustainable society.
