

Eswari Metal Industries

A Simple Measurable Accurate Reliable Timeliness firm

Our Vision

- To deliver the best quality and value for money to our customers through constant innovation and finding the most cost efficient way of operations.
- To create the best eco friendly practices in the work place by bench marking ourselves against the world class firms
- No asset is worth more than our employees; hence we want to create the best place to work in terms of health and safety for our employees.

Our Mission

Our mission is to be a significant player in the manufacture of lead products in the international market by delivering the best possible value to our customers and partnering along with all our stakeholders to continuously improve environmental friendly practices in the society as a whole.

Going Green >>

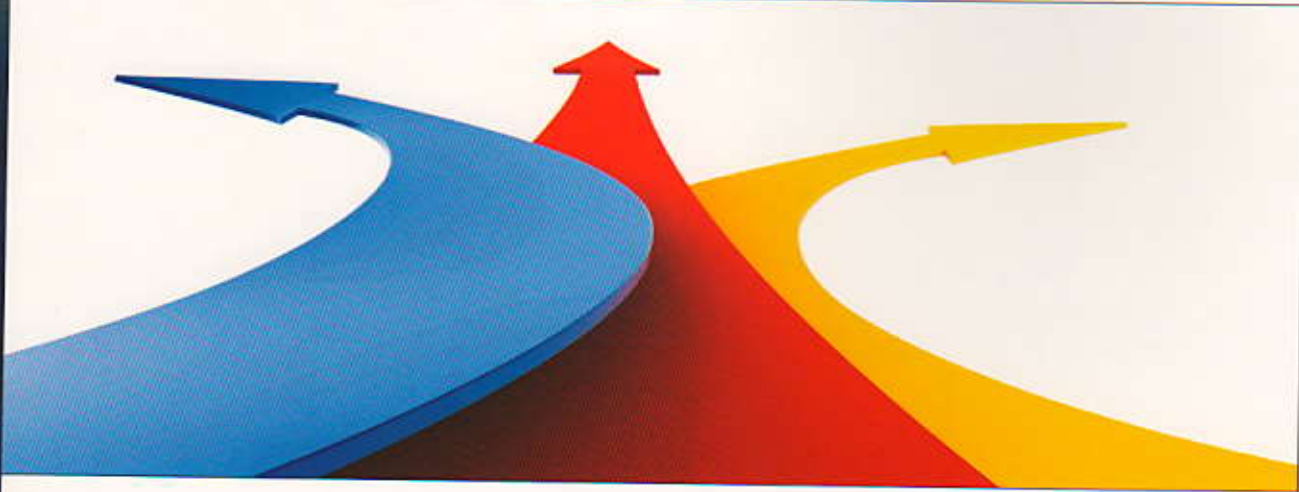

At Eswari Metal Industries (EMI), we are committed to a clean and green environment, one that will be cherished by the generations to come. We place special emphasis on environmental and ecological issues and therefore fulfill our responsibility as a corporate devoted to making the world a better place.

Lead and lead alloy manufacturing can have a harmful impact on the environment. At EMI high standards of environment friendly measures are adopted in each stage, right from the storage of batteries, processing the Lead metal and the disposal of wastes.

All processes in the manufacturing facility are in tune with air and water pollution control norms. The emission level in EMI is much lower than the allowable CPCB standards. We closely work with National Institute of Technology (NITK) (One of the most reputed institute in INDIA), Mangalore Karnataka to improve our Eco Friendly practices. The Ambient Air Quality monitoring and stack monitoring test are taken on a regular basis by NITK. At EMI, a team of qualified personnel's regularly monitor pollution levels and ensure that the process conform to accepted eco friendly standards.

Company Profile

Eswari Metal Industries is one of the leading battery recyclers in India. EMI is well known for its sound environmental friendly recycling and its care for the environment and safety of the employees. This thought has been well reflected in the mission and vision statement of the company. The key highlights of EMI are mentioned below:

EMI was established in the year 1987.

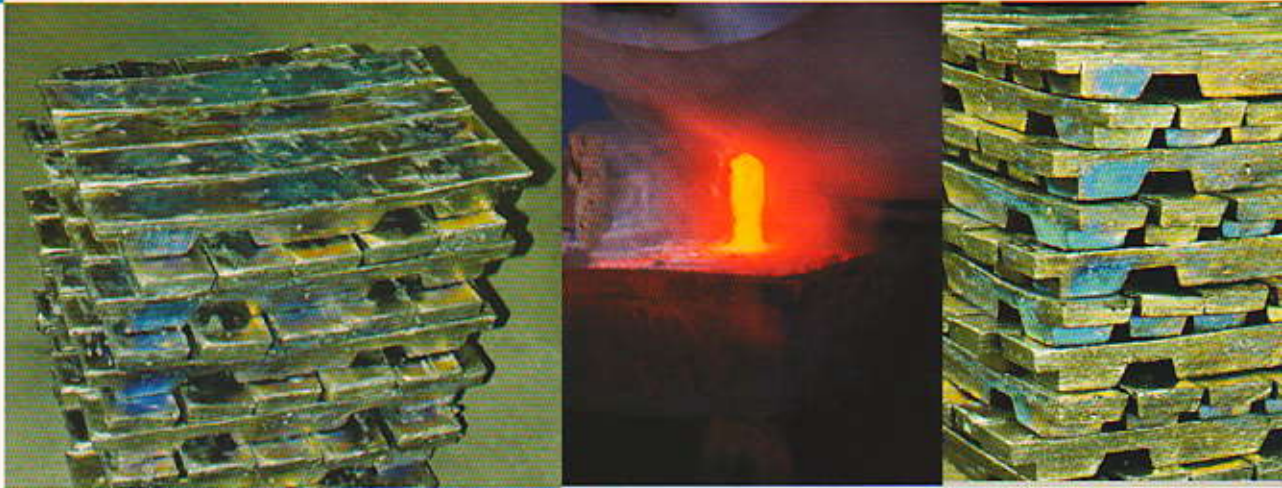

EMI was founded by a team of four visionary

Mr. P. Anbalagan,
Mr. P. Chandrasekaran,
Mr. P. Ramalingam,
Mr. P. Arumugam.

EMI helps companies to dispose of any Lead acid batteries and any lead bearing waste such as Lead dross and Lead cables.

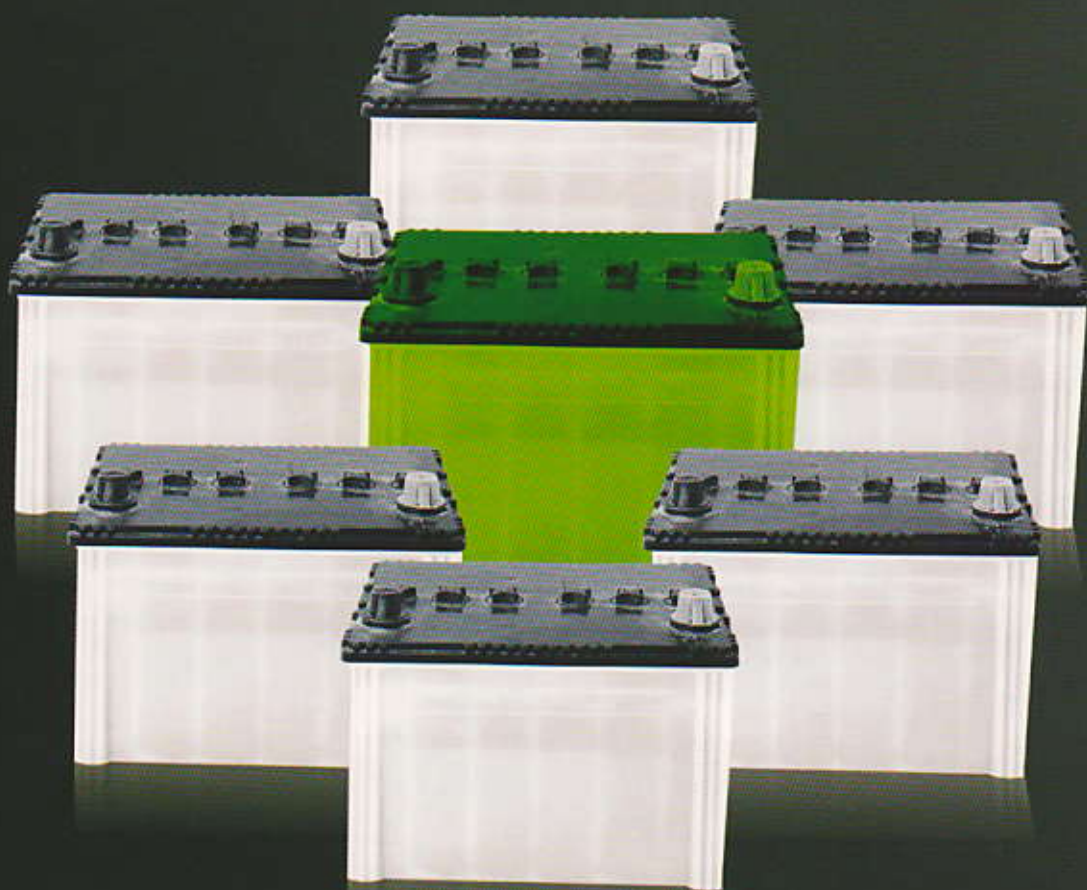

EMI currently has two units based in Mangalore, India with an annual Battery and Lead Scrap processing Capacity of 9230 MT.

Our Products

EMI currently produces pure lead and lead alloys of various types. The lead alloys are also produced according to the customer's specifications. The various alloys are mentioned below.

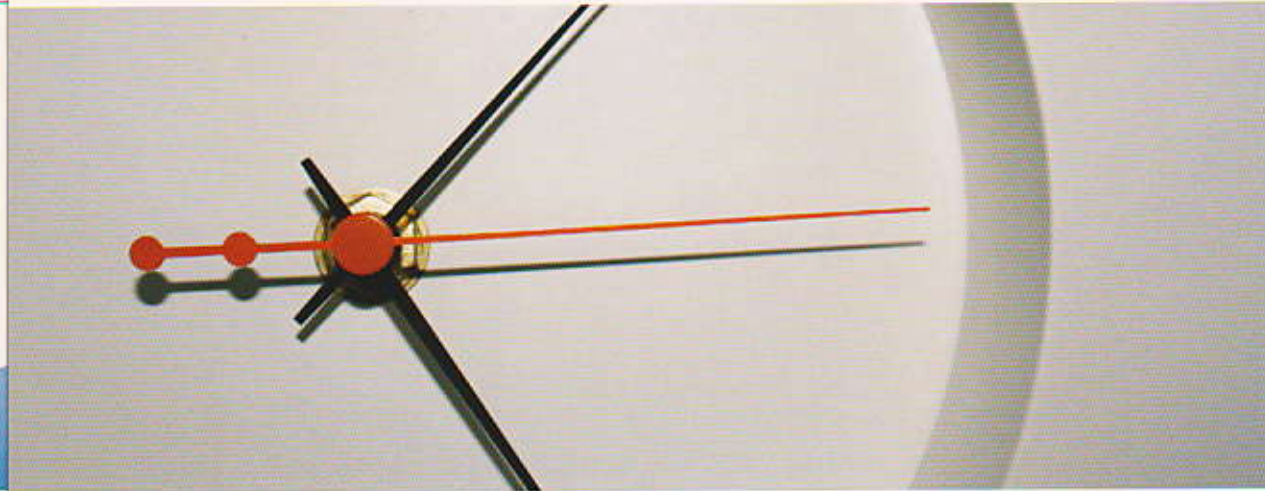

- Pure Lead with 99.97 - 99.98% purity
- Lead Antimony alloy
- Lead Selenium alloy
- Lead Calcium alloy
- Lead Tin alloy

WE RECYCLE

Our Services

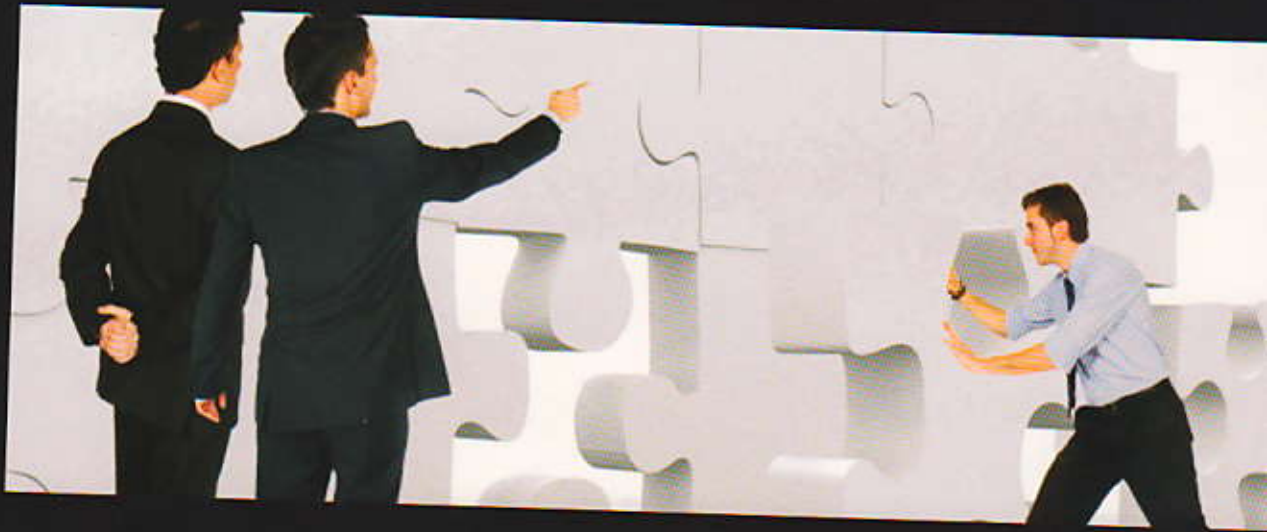

EMI currently offers its services to many government bodies such as BSNL, State Transport Corporations, Indian railways and many Multinational companies to dispose of any waste containing Lead. EMI currently recycles the following materials

- Lead acid batteries used in Traction, Automobiles, Computers, and UPS
- Lead dross, Lead solder dross
- Mixed hard and soft lead scrap
- Lead covered copper cables

Management Team

P. Anbalagan

Chairman and Strategic Advisor

Experience: 30 Years in Lead Smelting Company
Qualification: BSc degree from PSG, India

P. Chandrasekaran

Vice Chairman And Senior Financial advisor

Experience: 29 years in Lead smelting Company

P. Ramalingam

President and Senior Operations Advisor

Experience: 29 years in Lead smelting Company

Qualification: BSC degree from PSG, India

P. Arumugam

Vice president and Senior Marketing Advisor

Experience: 25 Years in Lead Smelting Company

C. BharaniKumar

CFO - Chief Financial Officer

Experience: Worked for 6 years
as a Software consultant in USA
Qualification: BE degree from KCT, India;
MS- Applied Mathematics from MSU, USA;

A. Sabarinathan

CEO - Chief Executive officer

Experience: Worked in operations in Ford, Germany
Worked in operations in Nokia, Germany
Qualification: BE- EEE degree from BITS, India
MS- Electrical from ULM, Germany

C. Pradeep

COO - Chief Operating Officer

Experience: 7 Years in Lead Smelting Company;

Qualification: BSC degree from PSG, India;
MBA from GRD, India

C. Prasath

CMO - Chief Marketing Officer

Experience: 5 Years in Lead Smelting Company
Qualification: BE- ECE degree from PSG, India;
MBA from Bradford School of Management, UK

Health & Safety

We believe that no assets are worth more than our employees. At EMI, we are committed to ensuring that the health and safety of the employees are taken as the paramount importance.

- All the employees are given access to all the safety equipments such as goggles, helmet, mask, gloves, safety shoes and other safety equipments.
- No employees are allowed to enter the production floor without appropriate safety equipments. The employees are well trained to follow the Health and safety standards.
- Monthly training programs are conducted to ensure that the Health and safety procedures are followed.
- Periodical health checkups are done to the employees by a well qualified industrial doctor.
- At EMI, we go one step further to make sure that all our employees are fed with appropriate healthy diet. We have a qualified dietician who ensures that fresh and healthy diet that is particularly necessary for a Lead industry is being supplied to all our employees.
